Satellite Imagery, GPS**

### FOUNDER PATRONS

**Dr DP Rao**

**Sri GS Kumar**

Dear Students and Teachers,

The GeoMap Quiz 2025 continues its mission to nurture spatial aptitude and map awareness among school students, equipping young minds with the skills essential for a rapidly transforming world. As India advances toward becoming a digitally empowered and geo-smart nation, understanding maps, geography, and spatial relationships is no longer limited to classrooms—it has become vital across all sectors of development.

GeoMap Quiz provides an engaging platform for students to explore the fascinating world of Geospatial Technologies—from Topographical Mapping and Remote Sensing to GPS and Scale Maps. These tools and concepts form the backbone of modern planning and management systems. Today, spatial intelligence plays a critical role in diverse fields such as urban development, agriculture, health care, transportation, and environmental management. Whether it is designing smarter cities, tracking disease outbreaks, optimizing logistics, or managing natural resources, geospatial thinking empowers informed decisions and sustainable solutions.

By participating in the GeoMap Quiz, students gain not only knowledge but also a lifelong curiosity to view the world spatially—linking data, location, and technology to real-world applications. We encourage schools, teachers, and parents to actively support this initiative and inspire our young geographers to become the spatial thinkers and innovators of tomorrow.

With best wishes,

**Maj. Shiva Kiran**

Convener, GeoMap Quiz 2025

### Categories & Participants Fee

Participation	: Rs. 200/- per team (Each team-2 students)
Categories	: 1. Sub juniors : Classes 5 & 6
